Elder Alfred Fallows presided at the baptismal service held at the Corporation Baths, Kidderminster branch (Birmingham conference), July 16, 1910, when six members were added to the Church. Elder F. E. Willing officiating.

There was a baptismal service held in the Bridgement Street Baths, Bolton (Manchester conference), at 7:30 p.m., Saturday, July 16, 1910, when five persons were added to the fold of Christ. Elders James H. Barkhead and George Briggs officiating.—Millennial Star.

March 21/1911

"There is no question about the 'ever busy' proposition. And possibly the country will wake up after a while to the actual menace that is apparent in the treasonable and usurping dominance of the licentious and adulterous priesthood, to the whole country."

Mr. Peck personally investigated this occurrence at the time and found out the real facts about these "123 girl converts" and the comments in the Tribune editorial. He found that on July 17, 1897, 126 "Mormon" emigrants landed in Boston; sixty-eight of these were males and sixty-eight were females. Of the females, fourteen were over forty-seven years of age and sixteen were under fourteen; two were So. Lake Ladies returning from a visit to Europe. They were nearly all in families, and had money enough to buy homes when they arrived in Utah. The Tribune could have learned all these facts if it had chosen to do so; but, it preferred to make the untruthful comments above noted.

Another interesting phase of the ocurrence concerned the Salt Lake Tribes
